April 23, 2014

Dear City Councilors and Citizens of Sand Springs:

On behalf of the budget preparation team which includes the City Council Finance Committee, the City's Finance Department and the administrators of the City's departments and divisions, I am pleased to present the 2015 fiscal year (FY-15) balanced budget for the City of Sand Springs and Sand Springs Municipal Authority for your consideration and adoption.

The local economy continues to slowly improve after experiencing significant downfall from the effects of the national recession that peaked in 2008, affecting the City's budget beginning in FY-09. Following two years of declining sales tax revenues, FY11 receipts grew by 2.6%, followed by 9.5% in FY12. However, the financial results for fiscal year 2013 demonstrate only a 0.4% increase in sales tax revenues over fiscal year 2012. Fiscal year 2014 year-to-date sales tax revenues through March have exceeded prior year by 0.8%, but are short of budgeted projections by 1.8%. Despite some improvement in revenues, the FY-15 Budget reflects a prudent and conservative approach to estimating revenues for the upcoming year, anticipating income from sales tax to go up 0.5% over FY-14 projections. Interest rates, another financial indicator of the state of the economy, remain low, currently down to less than half of a percentage point, and are not expected to change significantly in FY-15.

While sales tax provides over 44% of the operating revenue for the City, revenue from the Municipal Water Authority is the second largest revenue source at 25% of the City's operating revenue. Notable declines in water revenues as a result of lower-than-expected consumption are reflected in the FY15 revenue projections.

Operating expenditures are budgeted for a 0.2% increase from the FY14 budgeted expenditures. Personnel costs are the major driver of expenditures, with the largest budgetary increase reflected in personal services, showing an increase of 4.8% over prior year. This increase is largely a result a 1% cost of living wage increase and anticipated stipend bonus, combined with automatic step raises for most public safety employees. Increases in group health insurance and Workers Comp insurance are other major contributors to the increase in personal services expenditures.

Group health insurance premiums will increase by 7.6%, following a 2% increase in FY14. Worker's Comp insurance is budgeted to increase 10%. Federally-mandated health care reform fees that were instituted in January 2014 are also budgeted for an entire year in FY15, contributing \$29,923 in additional costs over FY14.

Public Safety expenditures also contribute a large share to the increase from FY14 expenditures. The FY15 budget anticipates replacing emergency communications equipment for officers and the emergency communications dispatch center, necessary due to aging equipment no longer supported by the manufacturer. However, with this equipment purchase the City will be compliant with the P25 digital radio standard, ensuring compatible communications with other local jurisdictions when analog signals are phased out.

Seven years ago, the city's budget provided for 227 full time positions and 18 part time positions. Following the economic downturn, the City implemented staff reductions in FY-09. Additional cuts were made in FY-10 and FY-11, when funding allowed for 185 full time positions. Some positions were restored in 2012-2014, with 201 full time positions authorized in FY-14. The FY-15 budget restores one full time position but freezes one full time position as shown below:

<b>Department</b>	<b>Position</b>	<b>FT Positions</b>	<b>PT positions</b>
City Manager	Assistant City Manager	+1	0
Communications	Dispatcher	-1	0

The FY-15 budget places emphasis on prioritizing capital needs city-wide while identifying ways to share existing equipment with a more efficient and cost effective system. The budget allows for the replacement of two police patrol vehicles, a used bucket truck to be used primarily by the Street department, and a utility vehicle for use by Parks Maintenance. The budget also designates funds for GPS mapping software to more accurately identify and locate the City's utility assets, a new vehicle for the Water Maintenance & Operations department, emergency breathing apparatus for the Water Treatment plant, and a sewer camera and truck mounted crane for Wastewater Maintenance & Operations. Other major purchases include polycarts, dumpsters and a garbage truck for Solid Waste.

Public improvements in the upcoming budget include various building improvements, street and utility improvements in the River West Redevelopment District, replacement of the water storage tank on McKinley Road, and a new runway lighting system for the Pogue Municipal Airport. Other significant capital projects contained in the FY-15 budget involve continued funding for widening 113<sup>th</sup> West Avenue, improvements to the Airport Access Road, and investments in storm water and flood control projects.

In closing, the FY-15 Budget provides the funding for maintaining the City's long tradition of excellent public service. We remain committed to allocating finite resources towards the City's mission of providing for the common good and delivering services essential for a safe, sustainable, and engaged community.

Respectfully submitted,

Derek Campbell  
Interim City Manager

## CITY OF SAND SPRINGS, OKLAHOMA BUDGETARY GUIDELINES

---

### **Budget Process**

A detailed request is prepared by the Director responsible for the specific department operating budget, equipment needs and capital projects, and is submitted to the Finance Department for analysis. The Budget Committee – comprised of the City Manager, Finance Director, and Budget Officer – then holds a series of joint meetings with Department Heads to affirm objectives, set priorities and justify work programs. From this process, the Budget Committee allocates available resources based on the priorities established by the group. Next, the Finance Committee, consisting of three council members and members of the Budget Committee, reviews suggested expenditures and makes a recommendation to the City Council and Municipal Authority Trustees. The City Council and Municipal Authority Trustees deliberate upon the proposed budget by holding a public hearing to approve the annual budget no later than seven (7) days before the end of the current fiscal year. The City Council must approve the budget before any expenditure is made in the new fiscal year.

### **Budget Law**

The City has adopted the provisions of the Municipal Budget Act (Title 11 O.S. §§ 17-201 through 17-216). In accordance with the Budget Act, the following process is used to adopt the annual budget:

- a. Prior to June 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following July 1.
- b. Public hearings are conducted to obtain citizen comments. At least one public hearing must be held no later than 15 days prior to July 1.
- c. Subsequent to the public hearing but no later than seven days prior to July 1, the budget is adopted by resolution of the City Council.
- d. The adopted budget is filed with the Office of State Auditor and Inspector.

All funds of the City with revenues and expenditures are required to have annual budgets and all budgets must be balanced (i.e. estimated revenues + appropriated fund balance = appropriations). The legal level of expenditure and encumbrance control is department appropriation total within a fund. Accounting for expenditures must at least be at the object category level within each department as follows:

- Personal Services
- Materials and Supplies
- Other Services and Charges
- Capital Outlay
- Debt Service
- Interfund Transfers

All transfers of appropriations between funds and supplemental appropriations require City Council approval. The City Manager may transfer appropriations between object categories within a fund without City Council approval. Supplemental appropriations must also be filed with the Office of State Auditor and Inspector.

In accordance with Title 60 of the Oklahoma State Statutes, the Sand Springs Municipal Authority, the Sand Springs Economic Development Authority and the Sand Springs Cultural and Historical Museum Trust Authority are required to prepare an annual budget and submit a copy to the City as beneficiary. However, there are no further requirements such as form of budget, approval of the budget or definition of a legal level of control.

### **Budget Accounting**

The City budgets for governmental funds, which include General Fund, Capital Project Funds, Debt Service Funds, and Special Revenue Funds, are based on the modified accrual basis of accounting. Under this method, revenues are recognized when “measurable and available”. Measurable means knowing or being able to reasonably estimate the amount. Available is defined as means collectible within the current period or soon enough thereafter (defined by the City as 60 days after year end) to pay current liabilities. The primary revenue sources, which have been treated as susceptible to accrual by the City, are sales tax, police fines, intergovernmental revenues, and other taxes. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recorded when due.

The City budgets for proprietary funds, which include the Sand Springs Municipal Authority Enterprise Funds based on the accrual basis of accounting. Under this method, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used.

The City utilizes encumbrance accounting in all funds under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve a portion of the applicable appropriation. Encumbrances outstanding at year-end are not considered expenditures for budgetary purposes, but are reported as a reservation of fund balance since the City intends to honor the commitments and provide for supplemental appropriations in the following budget year. All appropriations lapse at year-end.

**City of Sand Springs  
FY-15 Proposed Budget  
Budget Summary****Budget Process**

The budget process for FY-15 began with estimating anticipated revenues. This largely involved reviewing revenue trends over the last several years, assessing current economic factors and future economic predictions, and determining expected growth in the overall population of the City. The FY-15 budget reflects a very modest increase in overall revenues, anticipating a continued gradual recovery from the economic downturn that peaked in 2008.

The expenditure budget process for FY-15 began with the current FY-14 spending budget. The one-time items built into the FY-14 budget were removed and increases in certain uncontrollable expenditures were calculated to produce a base FY-15 budget. Workers Comp insurance premiums are budgeted to increase 10%; Health insurance premiums are budgeted to increase 7.6%. Anticipated increases in utilities of approximately 5% were built into the base FY-15 budget, but adjustments were made to reflect a decrease in consumption as a result of energy efficiency improvements made in previous years. Motor fuel is budgeted to decrease from prior year budget by 11.7% due to lower gas prices compared to prior years' projection as well as adjustments made for changes in consumption.

The City's two major sources of revenue are sales tax and water sales. These combined revenues are projected to fall short of FY14 budget by \$1.01 million, or 5.6%. The FY15 revenue budget is based on FY14 projections, which meant expenditure restraints needed to be addressed in order to present a balanced budget.

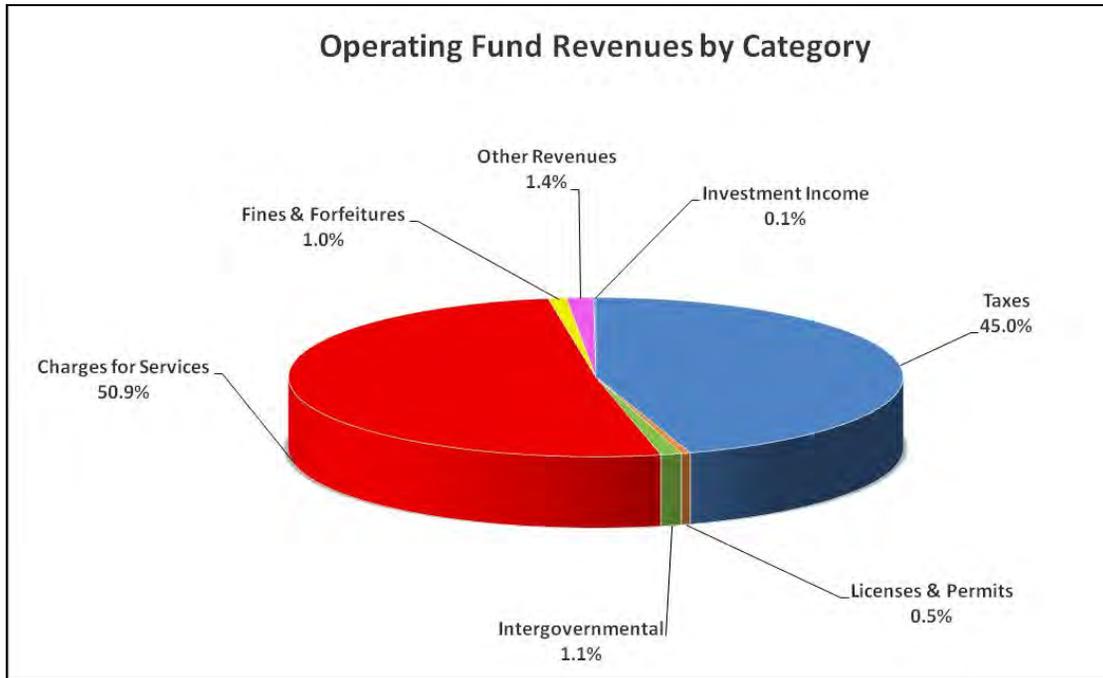

Department heads met and collectively set priorities, which included a 1% COLA wage increase and the restoration of the employee bonus stipend which had been cut from the FY14 budget. In addition, short-term capital needs were evaluated city-wide, with equipment purchases ranked by priority.

In order to meet these objectives, department heads were asked to analyze their respective budgets and cut one half of one percent in order to fund the priority items they had identified. After reviewing their proposed budget line items with the Budget Officer, they presented their proposals to the Interim City Manager and budget committee. Final changes were made and presented to the Finance Committee for review in advance of request for City Council approval.

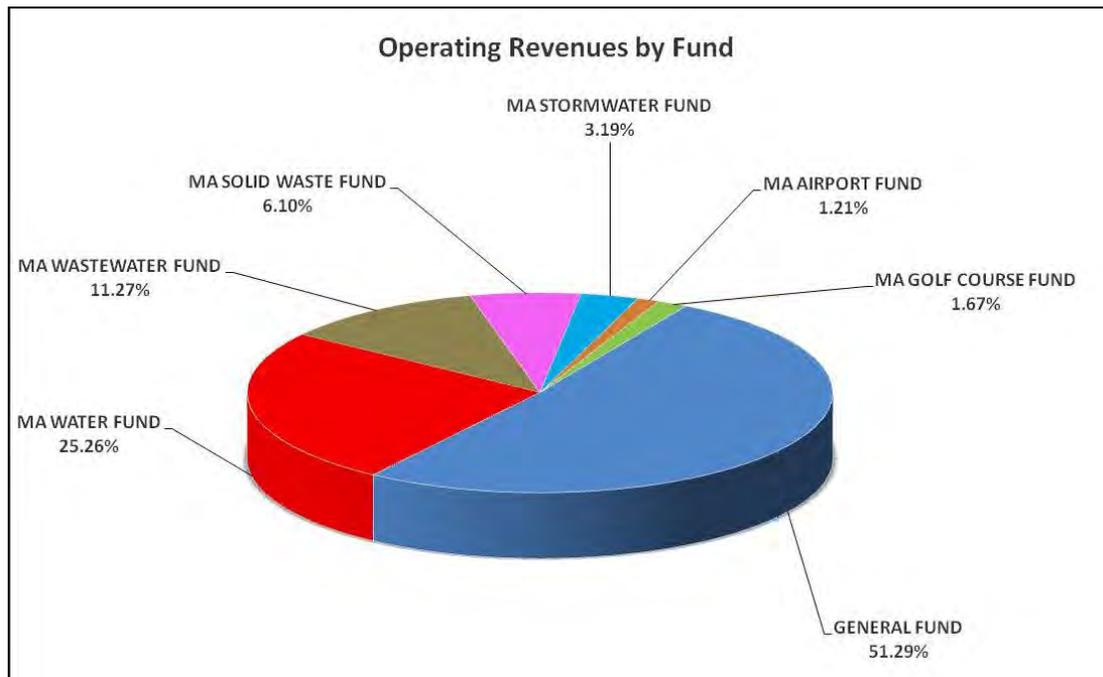

**Operating Budget Overview****Revenues:**

Budgeted revenues are reported in the following categories: Taxes include sales tax, use tax, hotel/motel tax, franchise tax, cigarette tax, and E-911 fees. License and Permits include various business licenses and building permits. Intergovernmental revenues include motor fuel and vehicle tax as well as various grants. Charges for

Services consists of park and recreation fees, inspection fees, court costs, EMSA fees, as well as utility, golf, and airport fees. Fines and Forfeitures include adult and juvenile fines. Other Revenues consist of interest on taxes and various other revenues. Finally, Investment income includes earnings on investments.

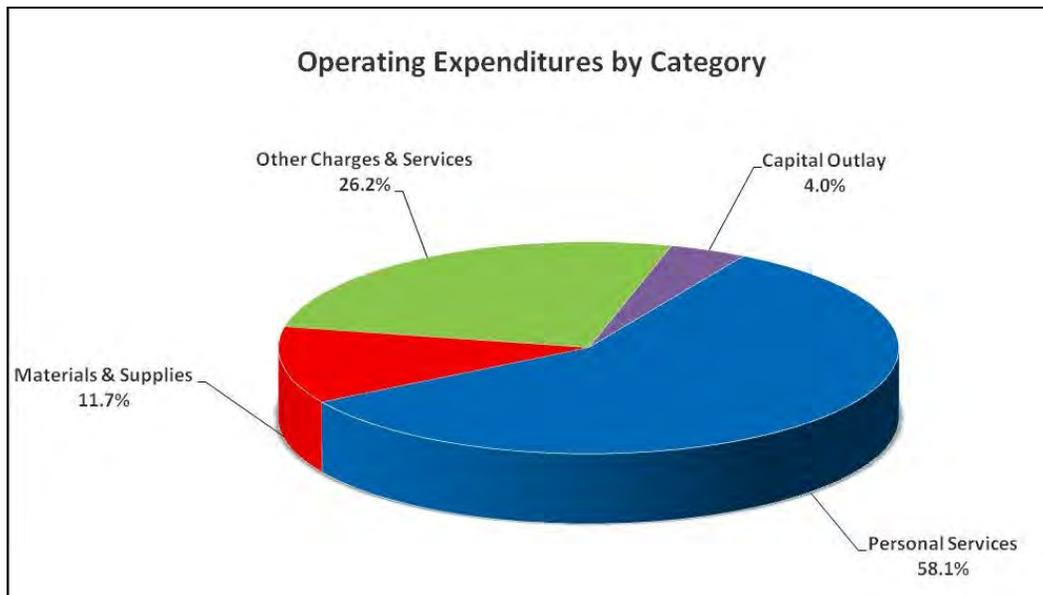

Total operating revenues are budgeted to generate \$29,884,166. The following reflects the composition of operating revenues by fund.

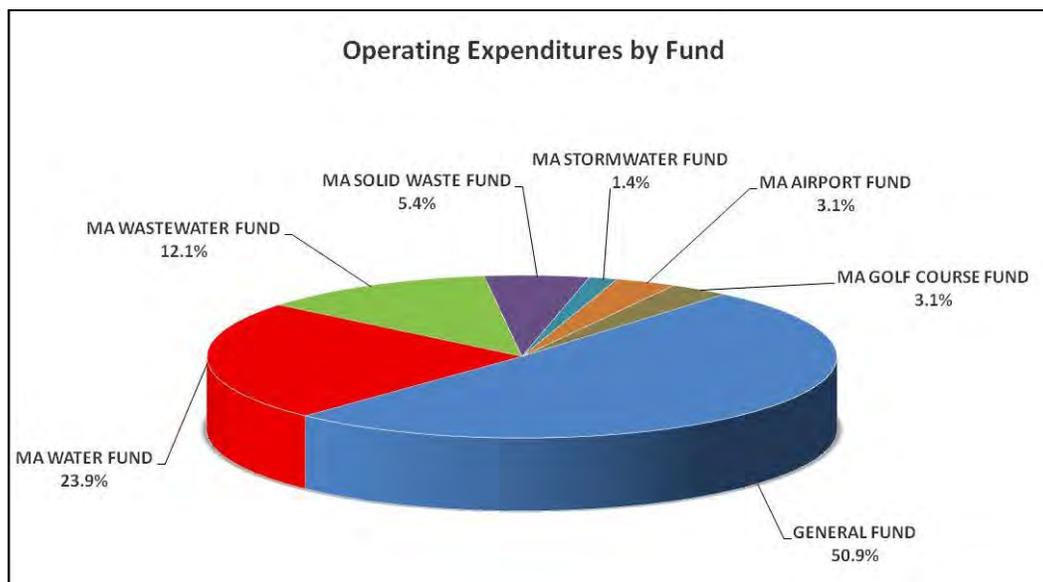

**Expenditures:**

The FY-15 budget is divided into four basic categories. The first, "Personal Services", encompasses all expenditures related to employee costs; such as salaries, benefits, travel and training, uniforms, and workers compensation insurance. The second category is "Materials & Supplies" and includes office supplies, motor fuel, minor tools and equipment, building maintenance, street materials, and property maintenance. The third category, "Other Charges and Services", includes general property and liability insurance premiums, contract services, computer software maintenance agreements and services, printing and advertising, and telephone and utilities. The fourth category, "Capital Outlay", includes items of value between \$2,500 and \$5,000 in the form of machinery and equipment, office equipment, or building improvements.

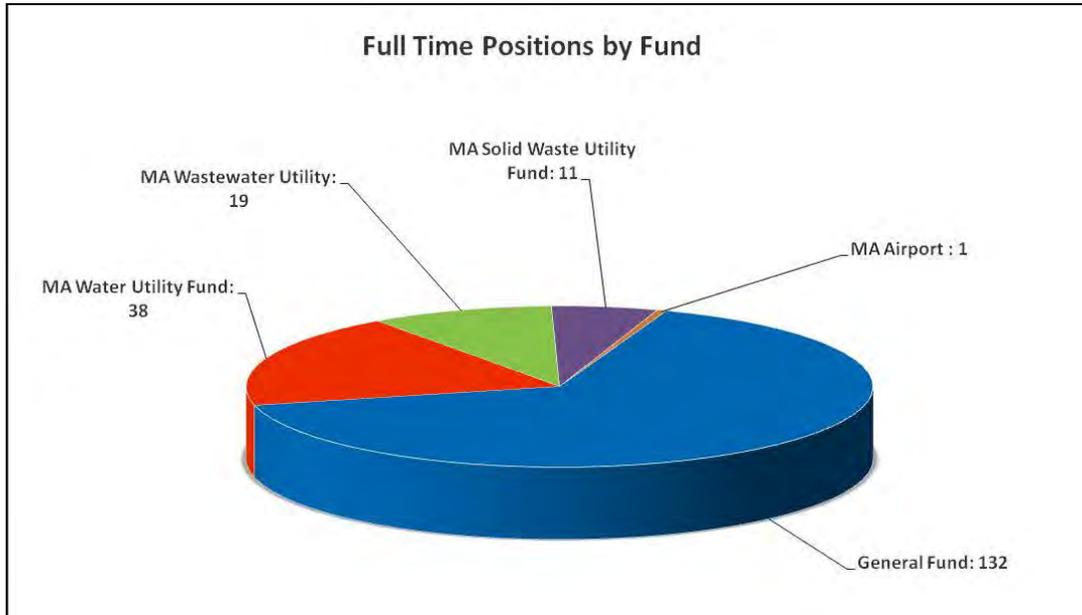

Total operating expenditures budgeted for FY-15 is \$34,697,382. The following reflects the distribution of operating expenditures by fund.

**Positions:**

The FY-15 budget allows for 201 full time positions. The following shows the distribution of full time positions by fund.

**Operating Funds**

The operating funds consist of the General Fund, Municipal Authority Water Utility Fund, Municipal Authority Wastewater Utility Fund, Municipal Authority Solid Waste Utility Fund, Municipal Authority Stormwater Utility Fund, Municipal Authority Airport Fund, and Municipal Authority Golf Course Fund.

**General Fund****General Fund Revenues- \$15,018,482**

Gross revenues reflect a \$555,255, or 3.6%, decrease from FY-14 budget. After dedicated sales tax and TIF transfers, net revenues in the General Fund are budgeted to decrease \$648,628 or 5.9% from FY-14 budget. Sales tax collections are projected to decrease \$248,798, or 2.4%, from FY-14 budget, but increase 0.5% over FY-14 projections. Use tax revenues are expected to increase by \$2,600, or 0.7% from FY-14 budget. Franchise tax revenues reflect a \$3,800, or 0.5% decrease from FY-14 budget. Reductions in budgeted grant revenues in the amount of \$427,102 from FY-14 are the result of one-time funds received in FY-14, and it is standard City policy not to budget grant revenues until they are awarded. Revenues from fines and forfeitures are anticipated to decrease in FY-15 by \$14,400 and Other Revenues are expected to decrease \$63,595, largely due to the loss of Insure Oklahoma reimbursements starting in January 2015.

FISCAL YEAR 2015

**OVERVIEW OF BONDS AND DEBT SERVICE**

Major capital improvements such as streets, buildings, other facilities and major equipment are often financed by bonds. This funding mechanism allows payment for infrastructure improvements to be made over multiple years, usually over the life of the improvement. General Obligation Bonds (G.O. Bonds) are issued only upon voter approval. Voters must be informed of the purpose of the bonds and review a list of bond projects to be funded.

Each year, the City repays a portion of the remaining principal on G.O. Bonds it has issued, along with interest on the remaining balance. The ad valorem (property) tax is the primary revenue source used for repaying G.O. Bonds. G.O. Bonds are backed by the full faith and credit of the City, meaning the City must levy ad valorem taxes sufficient to pay each year's principal and interest payments.

The Debt Service Fund is totally independent of the City's operating funds, using a different source of revenue. Because of this independence, debt service costs do not affect current or future operations. Article 10, Section 26 and 27 of the Oklahoma Constitution limits the amount of outstanding general obligation bonded debt of the municipality for non-utility or non-street purposes to no more than 10% of net assessed valuation.

In addition to paying the principal and interest on General Obligation Bonds issued by the City, the Debt Service Fund also pays certain legal judgments against the City. The Debt Service Fund Budget is subject to different legal requirements than the remainder of the City's Budget. The Debt Service budget is adopted and filed with the County Excise Board, which establishes property tax rates once the results from the previous year are finalized.

Revenue bonds and Oklahoma Water Resources Board loans for water and sewer, backed by user fees, have been issued by the Sand Springs Municipal Authority Trust. The City is the legal beneficiary of this trust.

**DEBT ISSUANCE GUIDELINES**

The City strives for the following ratios to guide the issuance of debt:

- ❖ Ratio General Obligation Bonds to Net Assessed Valuation = 20% maximum.
- ❖ Ratio General Obligation Bonds to Constitutional Debt Limit = 10% maximum.
- ❖ Strive for a Debt Service Fund mill levy that does not exceed 15 mills.
- ❖ Municipal Authority Debt Coverage Ratio to not fall below 1.25.

**Current Ratios, Based on figures reported in the FY2013 Comprehensive Annual Report:**

- ❖ General Bonded Debt Ratio (Net Bonded Debt / Net Assessed Valuation):

$$\mathbf{\$4,521,548 / \$123,219,414 = 3.67\%}$$

- ❖ General Legal Debt Information (Net Debt applicable to limit / Net Assessed Valuation):

$$\mathbf{\$4,119,634 / \$123,219,414 = 3.34\%}$$

- ❖ Debt Service Fund Mill Levy:

$$\mathbf{2013 \text{ mill levy} = 9.52}$$

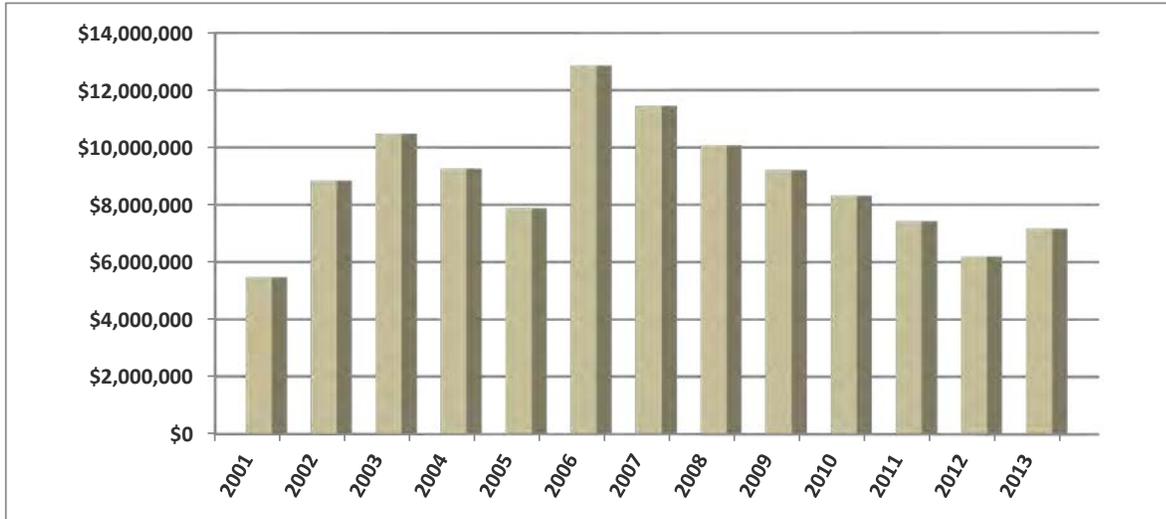

- ❖ Municipal Authority Debt Coverage Ratio (Net Revenues / Debt Service):

$$\mathbf{\text{Debt Coverage} = 4.67}$$

The City reserves the right to review and consider the impact debt could have with regards to the following, as well as a variety of other factors not specifically mentioned as the City determines pertinent:

- ❖ Adherence to the Capital Improvement Program
- ❖ Potential for increase in Assessed Valuation
- ❖ Potential for increase in sales tax revenue
- ❖ Mill levy required to service the Debt Service Fund annually
